

KLOVE radio serves me as a resident of the local community because it provides positive music and announcer comments in a town where very few other stations do so. I keep my radio tuned to KLOVE almost exclusively. It has helped me get through graduate school when I was loaded down with stress and schoolwork and some disappointments. If KLOVE were to be displaced by an LPFM broadcaster providing other programming I believe our local community of KLOVE supporters would not receive the daily encouragement they need (included in this list are surgeons at Duke med center--specifically orthopedic, neurosurgeons) in their stressful jobs. I enjoy this family friendly KLOVE station and believe the service it provides is in the public interest because it offers something positive for everyone (kids, parents, singles etc.) and has been supported by those people since it went on the air in my area. PLEASE don't force them off the air!
